

The Therapeutic Effects of Essential Oils

with instructors:

Hallie Sawyers, LMT, APP, NCTMB & Sondra Hartmann LMT

Learn aromatherapy basics, work with essential oils to create your own massage lotion or oil, and then experience the therapeutic effects of that product through giving and receiving a hands-on session.

Lay People Welcome!

Thursday, 11/14/13 \$100

**Pippi's Healing Garden, Fayetteville, NY
9:00 – 3:00 p.m.**

10% discount for registration 30 days in advance.

Lay People Welcome!

Though this training is intended for licensed health care professionals, **LAY PEOPLE ARE WELCOME:**

Attend the first half of class at half price and receive all the vital information. The only thing you miss is the practical application where students give and receive a massage using the products made in class.

Healthcare Professionals: Add a spa-quality to your work and save your hands! You'll leave fully quipped with hands-on experience in aromatherapy to address common symptoms such as muscular pain, contraction, and inflammation. Allow essential oils begin to resolve those symptoms before your hands ever have to do any work!

Lay People: Add some potent healing tools to your first aid kit. Essential oils are everywhere. Yet, most of us have limited knowledge of how to harness the healing magic of these amazing extracts. From burns to acne, common cold symptoms and more, essential oils can easily come to the rescue when you know the basics.
